

# Drinks dispense systems Generator and CarboStore

**AIR PRODUCTS**  
CryoEase® Services

## Features/benefits

- A tailor-made system to meet your specific cellar and safety needs.
- Suitable for drinks dispense in medium/high volume outlets.
- Equipment provides all your gas needs for drinks dispense and line cleaning.
- CarboStore can be sited internally or externally.
- CarboStore refilled on site, either direct to tank or via remote fill point.
- Backup cylinders and CO<sub>2</sub> monitor installed for added security.
- Fixed connections reduce the risk of connecting incorrect cylinder.

*“We take away all your cellar gas hassle and free your time to serve customers... and make you more money.”*

## A revolutionary, cost-effective system for successful volume outlets.

**Saves Time** – no more cylinders - eliminating cylinder handling and changing - especially during busy sessions.

**Saves Money** – only pay for the CO<sub>2</sub> you use, mixed gas self-generated by the system.

**Saves Administration** – fixed monthly cost tailored to suit, means billing and budgeting is easy.

**Safety Built In** – no more handling cylinders means less chance of injury to you and your staff. CarboStore is a low pressure vessel which decreases risks posed by high-pressure cylinders. CO<sub>2</sub> monitors and other safety equipment are supplied.

**Fit and Forget System** – this fully automated system is designed to need virtually no input from you and your staff.

**Peace of Mind** – our Gas Management system automatically schedules regular deliveries, saving you the hassle of chasing orders or waiting for deliveries.
